Description of Qualifications/Skills

(Please provide a brief description of why you are interested in serving on the Regional Council; you may include a statement as to what skills, education, knowledge, etc. you feel may contribute to the Council's work.)

Jason earned his undergraduate and graduate degrees in education from Old Dominion University and his doctoral degree from Virginia Tech. As a former high school and middle school technology educator, public school administrator, and career/adult education director, his knowledge and experience within K-16 programs including occupational technical training programs positioned him to become the Vice President for Workforce and Community Development at Rappahannock Community College (RCC) in December 2009. He serves on several workforce-related boards including the Northern Neck Chesapeake Regional Partnership, Virginia Marine Trades Association, the Mathews County Rotary Club, the Bay Consortium Workforce Development Board, and LEAD Northern Neck which is a local activist group focusing on leadership, economic and workforce development.

Jason oversees a variety of workforce development programs including the RCC Office of Career and Transition Services, the RCC Summer Youth Employment program and the RCC Regional Education and Human Resources Consortiums. Through leveraging of grants and foundation funding, the RCC Workforce Center has worked hard to meet the needs of participants in the region who may have multiple barriers to employment. He strongly believes in coupling together academic and workforce certification training to provide greater success for students along various career pathways.

The Workforce Center provides high quality, cost effective, flexible, comprehensive and responsive programs designed around business, industry and education needs. Our customized training teaches individuals in the Middle Peninsula and Northern Neck hands-on skills for immediate application in the workplace, especially those pursuing high demand, high wage career pathways.

The workforce center provides classes and programs to develop individuals for careers and promotions, and assistance to area businesses, industries, and educational institutions in achieving effective solutions through employee development.

By connecting with the council, I am able to assist local agencies and organizations as they pursue GoVA grant opportunities in the region.
